

REBECCA TSENG

BIOINFORMATICS AT UCSD

CONTACT

✉ retseng@ucsd.edu
📞 650-554-0333
🌐 <https://www.linkedin.com/in/rebecca-tseng-23a11228b/>
📍 San Diego, CA

SKILLS

Computational tools: GitHub, Vim, Jupyter Notebooks, AWS

Bioinformatics toolkit: Bioconductor, Seurat, Scanpy

Languages: Python, R, Java, Bash (Shell Scripting), Go, C, C++

Operating Systems: Windows, Linux

EDUCATION

University of California, San Diego

In Progress: *B.S., Bioinformatics with Minor in Computer Science*

Fall 2023 - Present

Expected Graduation: Winter 2027
GPA: 3.61/4.00

RELEVANT COURSEWORK

Statistics for Bioinformatics

Molecular Biology

Genetics

Organic Chemistry

Design and Analysis of Algorithms

Data Structures in Java

Software Tools/Techniques

Discrete Math

Linear Algebra

AWARDS

Provost's Honors
Fall 2023, Winter 2024, Winter 2025

PROFILE

Self-motivated undergraduate studying Bioinformatics with a strong foundation in both biology and computation. Eager to apply my background in genomics, statistics and data analysis to contribute to biomedical research.

EXPERIENCE

Student Research Assistant

Jan 2024 - Present

UCSD School of Medicine - Department of Pediatrics
(Kyle Gaulton's Lab)

- Investigated pancreatic β -cell stressor responses in type 1 diabetes using multi-omics data
- Conducted differential expression, enrichment, and gene/pathway-level association analyses; visualized findings with genomic tools

Research Intern

June - August 2025

Canary Cancer Research Education Summer Training
(CREST) Program, Stanford University School of Medicine
(Christina Curtis' Lab)

- Performed single-cell spatial transcriptomics analysis of metastatic colorectal cancer patients
- Identified spatial patterns and differences between primary and metastatic tumors using manual and automated cell typing and deep learning-based tools

Undergraduate Bioinformatics Club

Sep 2023 - Present

- Attend workshops and networking events
- Participated in student mentorship program

PRESENTATIONS

Determining the role of pancreatic beta cell stress responses in type 1 diabetes, UCSD Undergraduate Research Conference

April 19th, 2025

Characterizing spatio-temporal differences in primary and metastatic colorectal cancer, Canary CREST Symposium

June 22nd, 2025

OTHER ACTIVITIES

Campus Outreach at UCSD

Fall 2023 - Present

- Active member
- Serving on Student Leadership since Fall 2024

Digital Monkey Piano School

Feb 2023 - Sep 2023

Belmont, CA

- Taught students ages 5-10 basic keyboard skills
- Introduced theory and ear training

Youth Volunteer

Jan 2020 - Dec 2022

Mills Peninsula Medical Center, Burlingame, CA

- Served across various departments including Transportation, Hospitality, and Gift Shop (retail)
